URIAH HEEP Announces the Release of Obscure Re-Recordings Anthology, Now Re-Branded Totally Driven - OUT NOW !

London, UK - Legendary band URIAH HEEP was formed in 1969 and still actively tours the world today. This release re-brands a previously released obscure re-recordings anthology as TOTALLY DRIVEN. The album features 27 re-recordings made in 2001 including the HITS Lady in Black, July Morning and Easy Livin'.

This album features the band's longest running line-up of MICK BOX, LEE KERSLAKE, PHIL LANZON, BERNIE SHAW and the late TREVOR BOLDER. This release is the first on the band's own URIAH HEEP RECORDS.

Of the release, Mick Box said *"The 'Totally Driven' recordings were made while we were in preparation for the 'Acoustically Driven' and 'Electrically Driven' concerts. Previously these 2001 recordings were released under the confusing name 'Remasters', but that title went out of print very quickly. This re-release has had the band's full input, including in its re-branding as 'Totally Driven' and will be the very first release on our own Uriah Heep Records. 'Appy Days!'"*

Totally Driven is housed in a 6 panel digi-pack with new custom artwork by Igor Morski.
